

# HealthLynked Corp. Announces release of its Medical Newsfeed Service for Members and Providers

January 2, 2018

Naples, FL- (January 2, 2018) – HealthLynked Corp. (OTCQB: HLYK) today announced the release of its new design with the introduction of its newsfeed service. The new design allows members to access the latest medical information relevant to their medical interest. The HealthLynked newsfeeds include 138 different medical categories and topics ranging from Allergies to Women’s health.

Dr. Michael Dent, Chairman and Chief Executive Officer stated, “The HealthLynked Network continues to expand its services with the addition of our medical newsfeed service. Our member’s interest is determined by the providers they “lynk” with and what they post. Today’s new feature builds on our current technology and provides the most current medical information to our members.”

Dr Dent went on to say, “We are excited to keep our members more informed about their medical conditions and the latest advances in healthcare. The goal is to engage our users to regularly visit their HealthLynked profile. Members can elect to add or remove newsfeeds to customize the content of medical information they receive. Our new design is in line with our mission to improve healthcare through a more efficient exchange of medical information.”

## **About HealthLynked Corp.**

HealthLynked Corp. provides a solution for both patient members and healthcare providers to improve healthcare through the efficient exchange of medical information. The HealthLynked Network is a cloud-based platform that allows patients to connect with their healthcare providers and take control of their medical information. Patients enter their medical information including medications, allergies, past surgeries and medical records in one convenient, secure online location, free of charge.

Participating healthcare providers can connect with their current, former and future patients. The benefits to our provider members include the ability to see more patients, access more accurate patient information, improve patient retention, more efficient scheduling, and the ability to fill last minute cancelations, through our “real time appointment scheduling” mobile application. Healthcare providers pay a monthly fee to increase online visibility, connect to their existing and former patients, recruit and maintain new patients, and improve office efficiency.
