

# HealthLynked Prepares For Future UpListing to the NASDAQ Capital Market

Naples, FL., March. 4, 2019 **HealthLynked Corp.** ("HealthLynked" or the "Company") (OTCQB: HLYK), is pleased to announce that the Company has filed an application to have its shares of common stock listed on the NASDAQ Capital Market.

The Company's NASDAQ Capital Market listing application is subject to review and approval by NASDAQ's Listing Qualifications Department to ensure compliance with and the satisfaction of all applicable listing and regulatory requirements of NASDAQ Capital Market standards, including the share-price requirements, which the Company does not meet at this time.

The Company plans to continue its aggressive acquisition strategy to grow its healthcare services and significantly expand its network of providers and members over the next twelve to eighteen months, in anticipation of uplisting to NASDAQ with the expectation to have achieved all requirements prior to uplisting.

"Elevating the listing of our common stock to the NASDAQ Capital Market will provide us with access to a larger pool of capital at a higher valuation, which is an important step forward in our mission to enhance shareholder value while complementing the operational progress we have made over the past two years in growing the HealthLynked network and meeting the expectations of our shareholders. As Healthlynked continues to expand its US market, the NASDAQ listing is expected to increase the trading liquidity of our common stock, broaden our shareholder base and raise our profile in the investment community," said Michael Dent M.D., HealthLynked's CEO and Chairman of the Board.

The Company's common stock will continue to trade on the OTCQB under its current symbol, HLYK, during the NASDAQ review process and while the Company prepares to meet all the requirements for uplisting to NASDAQ.

## **About HealthLynked Corp.**

HealthLynked Corp. provides a solution for both patient members and providers to improve healthcare through the efficient exchange of medical information. The HealthLynked Network is a cloud-based platform that allows members to connect with their healthcare providers and take more control of their healthcare. Members enter their medical information, including medications, allergies, past surgeries and personal health records, in one convenient online and secure location, free of charge.

Participating healthcare providers can connect with their current and future patients through the system. Other benefits to providers include the ability to utilize the HealthLynked marketing tools to connect with their active and inactive patients to improve patient retention, access more accurate and current patient information, provide more efficient online scheduling and to fill last minute cancellations using our “real time appointment scheduling” all within our mobile application. Healthcare providers pay a monthly fee to access these HealthLynked services.
